Subject:	AW: Shape Data Düsseldorf

Hilft das weiter ?

„Die Grenzen liegen als Polygon vor und sind über GetFeatureInfo abfragbar." Klingt ja schon mal gar nicht so schlecht. Und unter den angegebenen email-Adressen wird's ja vielleicht auf Anfrage auch eine Shape-File geben.

Quelle ist: http://maps.duesseldorf.de/Gesamt/

Wo sich in den Layers die Gebietsgrenzen an-u. abschalten lassen.

Solltest DU au Basis dieser Info verwertbare Shape-Daten erhalten, dann laß es mich bitte wissen,

Ulf

Gebietsgrenzen Düsseldorf WMS

Abstract:
Der Dienst enthält die Stadtgrenze, Bezirksgrenzen und Stadtteilgrenzen der Stadt Düsseldorf. Zudem können Stadtbezirksnummern und Stadtteilnamen eingeblendet werden. Die Grenzen liegen als Polygon vor und sind über GetFeatureInfo abfragbar. Für die einzelnen Layer sind unterschiedliche Maßstabsbereiche definiert.

Betreff: RE: Shape Data Düsseldorf

Oh, die map auf der Seite hat die shapefiles ja auch irgendwie auf die google map gepackt… das brauche ich auch ;o)
Danke!

Subject: Shape Data Düsseldorf

Hi,

bin mir nicht sicher, aber könnte es sein, daß Du aus dem Quelltext z.Bsp. von dieser Seite die Informationen zu den Shapes der Stadtbezirke und Viertel extrahieren könntest:

Source: https://www.citypopulation.de/php/germany-dusseldorf.php

Sieht für mich im Quelltext so aus, als würden da sehr genau die Shape-Informationen an ein JavaScript übergeben…. Bin aber nur Laie und kann das nur raten ☺

Sollte ich noch eine Webiste finden mit herunterladbaren Daten, dann melde ich mich,

Ulf

Quelltext: view-source:https://www.citypopulation.de/php/germany-dusseldorf.php
